JunkJack has managed to get hold of a copy of the 2018 Consumer Package X-Force. The machine in the image below is a prototype that we will sell to retail outlets. This machine is from Autodesk, which is a subsidiary of the Emerson Fittipaldi group. The new X-Force 2018 Consumer Package is the X-Team edition with 64-bit software, more memory, a higher price and according to the box, improved modeling and grading. We were contacted to look at this machine and to offer an opinion. The

X-Force 2018 is designed to be an all-in-one 3D printing package. This means that it is a 3D printer, a CNC mill and an automatic cutter. The only 3D printer that offers similar functionality is the Makerbot and the cost is 2-3 times the X-Force. The X-Force comes with the X-STUDIO 4D modeling software that is a free upgrade from the previous version. There are the usual 3D modelers and a sketchbook in addition to the software. The software is not as powerful as the 3D software from Rhinoceros 3D, Tinkercad, Corel, etc. but it is OK for a 3D printing package. In addition to the software, the X-Force 2018 has

a CNC mill that can cut your 3D printed parts from 2D sheets of plastic. The cutters can cut sheets from up to 3.5 mm thick plastic. The mill uses steel cutters that are powder coated and we measured some of them. The powder coating is very durable and allows for a cool and precise operation. The cutters are very easy to replace and can be removed from the machine. The machine has 8/16 mm diamond tipped cutters. The blades are mounted on an air bearing arm that lets the cutter move closer to the work piece. The cutters are made of silicon carbide (SiC) and the machine runs at 5,000 RPM. According to Autodesk the X-

Force can cut 0.062 mm of plastic. In addition to the mill, the X-Force has a CNC 3D printer that uses plastic filament. The filament is on a coil that can be changed in the software. There is a variety of plastic filament that can be used with the machine.

The software supports nylon, ABS, Acrylonitrile butadiene styrene (82157476af
